

**RAJARAM COLLEGE, KOLHAPUR
DEPARTMENT OF BOTANY**

INAUGURATION OF GREEN CORNER 2022-23

Green corner is a unique activity of the department. It is the Botanical Club established with the view of conducting programs with the active involvement or participation of the students. It can be aptly described as the student's corner. The practice followed every year is that the students of B.Sc.Part III Botany display interesting and novel plant species, medicinal plants, qaquatic plants, cryptogams, horticultural techniques such as bonsai, terrariums, flower arrangements, etc.in the corner with information for all to read. There is display of autobiographies of renowned Botanists, news feeds related to the subject, research in the department and latest research developments and so on.

On 17th November 2022, the Green Corner was inaugurated at the auspicious hands of Mr. Ashish Ghevde, President, The Conservation Foundation of India as well as our Alumnus. During the program the activity of green corner was enumerated by Prof. Dr. A.R.Patil, Head, Department of Botany. Mr. Ashish Ghevde stressed upon the need for such awareness activities among students. The program was inaugurated by lighting lamps. Respected Principal Dr.Y.C.Attar, all the staff of the department and students were present for the program.
